CMPT 109-33 Mid-Term Tests info

General: There will be 2 midterms as well as a final. The First midterm will cover everything from Sept. 3 to October 1. The second midterm will cover everything from October 8 to November 12. The final is cumulative.

Test Material: Lab and lecture material are fair game for the tests. Outlines will be given to indicate what to study for the tests. Pay close attention to what we go over in class, the instructor is more inclined to test on his material.

Attendance: As stated previously, missing a test is an unexcused absence unless one of the conditions in the attendance policy is met.

Test Prep: Check out the outlines (points) posted under the 'Class Notes' and 'Labs' section of the website.
